## 1 GENERAL INFORMATION

### SERIAL NUMBER LOCATION

### TEXT FORMAT AND ILLUSTRATIONS

The arrangement of this parts catalog is for easy identification of parts. All parts are illustrated in exploded views in proper relation to each other. Some diagrams refer to other pages for further information. Reference numbers used in the illustrations refer to line numbers in the part lists. The part lists appear to the right of all diagrams and correspond with those diagrams. Included in the part lists, along with the reference numbers are part numbers, part descriptions, and the quantity of the part required per leveling system.

### ABBREVIATIONS

**SN** "Serial Number" The four digits shown in the SN column refer to the last four digits in the Hillco serial number. Each Model 2800 system uses the following format:  
2800-XXXX (sequential numbers).

**ASM** "Assembly" refers to a whole grouping of parts (usually shown in the diagram to corresponding with the page where "ASM" is shown).

**NS** "Not Shown" refers to a part that is not depicted in the illustration.

### RIGHT AND LEFT IDENTIFICATION

The reference to right-hand and left-hand in this catalog is identified by the operator standing at the rear of the machine looking toward the front of the machine (in normal forward travel).

### PARTS ORDERS

Orders must specify product model, serial number, correct part number, complete description, quantity required, method of shipment, shipping address, and billing address.

## 2 TRANSITION

SEE PAGE 2-5 FOR  
TRANSITION FASTENERS
